3. [REDACTED] Talked with Stuart French, OSD/ISA, in connection with the preparation of our response to Senator Symington's letter of 9 March setting forth the charter of his Subcommittee on U.S. Security Agreements and Commitments Abroad.

French indicated that the White House working group, which was established in the last Congress to deal with matters concerning the Symington Subcommittee, was being reinstated. In the meantime the White House has suggested that departments and agencies merely acknowledge the receipt of the Symington letter and designate the individuals who will serve as liaison with the Subcommittee.

4. [REDACTED] Talked with Scott Cohen, on the staff of Senator Charles Percy (R., Ill.), in followup to the Senator's request to the Director for a briefing on Soviet strategic missiles. Arrangements were made for Mr. Duckett to brief the Senator at his home this evening. Cohen expressed the hope that he and the Senator's Administrative Assistant, Joe Farrell, could sit in on the briefing, but I told him our ground rules that briefings at this classification level were given to Members only. Cohen accepted this.
